# All About Cremation

## Your Deceased Family Member Never Leaves Our Care

We are among the very few mortuaries to operate our own crematory inside our clean and secured state of the art facility. It is very important to understand that because of this we are in control of your loved one's care from initial contact with us until the cremated remains are returned to you or placed in their final resting place.

## We Only Cremate One Person At A Time

It take more effort to ensure that the cremation is handled with care, dignity and the highest of standards. To assure that your loved one is being cared for appropriately, we strictly adhere to the rigid standards in every cremation process. Each person on our cremation and crematory staff is highly trained and certified. They are dedicated to providing dignified cremation services for your loved one and adhere to the cremation Code of Ethics, and all applicable state laws as assurance to you of our commitment to dignity and honesty.

## Your Personal Inspection is Encouraged

We are one of the very few crematory facilities that encourage your personal inspection of the cremation process. We offer a comfortable special viewing room located next to our cremation retorts to facilitate those who wish to be present for the start of the cremation process.

## Understanding the Cremation Process

Cremation is the process of reducing the body of the deceased to fragments of bone by the way of heat and flame. We prefer to say "cremated remains" rather than "ashes" because we believe that the term "ashes" could be misleading. Our funeral directors and crematory staff can explain the consistency of cremated remains in as much detail as you prefer. If you are considering scattering, we would recommend you ask us to prepare you for what you will see. If the deceased is Jewish, Christian Orthodox, Muslim or Roman Catholic, you may wish to consult you clergy or our staff for guidance in relation to your religious customs and requirements. For example, the Catholic Church strongly advocates for the presence of the whole body or entire cremated remains to be present for the Funeral Mass. The Catholic Church does not accept the scattering or splitting of cremated remains. Our cremation authorization form goes into some more detail in explaining the cremation process, our policies and procedures. You will receive a copy of all such complete forms during your arrangement consultation.

## Mailing of Urns

We will package, transport and mail the cremated remains by U.S. Priority Express Mail only (other carriers will not accept cremated remains) anywhere in the United States for \$150 (add the cost of urn). Keepsake urns will be \$95 each (add the cost of the keepsake). To be safe allow at least 3 - 5 business days for Priority Express Mail in the continental United States. Outside the county mailing services starts at \$250.

## Cremation Service Options

It will be necessary to select or provide a container for any viewing and/or cremation process as well as a container for the cremated remains. We offer a wide variety of rental and combustible containers for cremation. We also offer a wide variety of distinctive and value priced urns. Because we schedule our crematory days in advance, and due in part to the time involved in meeting the legal requirements of the death certificate and disposition permit, we allow for 3-5 days following the permit being issued to complete the cremation process on average.
