INTRODUCTION

In the past, funeral service pricing has been a relatively simple process. Under new funeral guidelines outlined by the Federal Trade Commission, many of the costs previously associated with a funeral service must now be listed separately. While this itemization of costs does not necessarily affect the total cost of a funeral, it may make selecting funeral services a somewhat more complicated process. In the long run, however, it should enable families to better understand the various expenses associated with a funeral. This price sheet presents our prices for various elements of our funeral service options. Our staff will assist you with all of your funeral arrangements, and will explain all the information contained in this general price list.

In general, there are six categories of costs associated with a funeral service. These are:

Funeral Service Options
Cash Advance Items
Cemetery Charges

Casket Costs
Outer Burial Container Costs
Cemetery Memorials

The remaining pages of this price sheet contain a detailed breakdown of funeral costs and services. Our staff will also show you a copy of our Casket Price List and Outer Burial Container Price List, as it pertains to each of the above categories. Our staff will assist you in selecting the services you desire.
