# Planning a Meaningful Tribute...

*It is our goal to help you plan a meaningful tribute,  
by providing the best products available on the market with affordable pricing.*

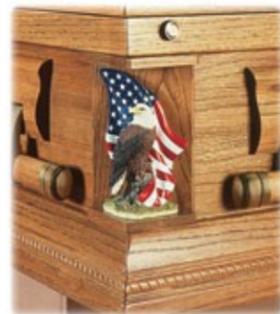

A funeral is so much more than a way to say goodbye; it's an opportunity to celebrate the life of someone special.

A funeral should be as unique as the individual who is being honored. From simple touches like displaying personal photographs to events created around a favorite pastime, funerals can reflect any aspect of a person's life and personality.

Following are questions you can use to help you decide how to personalize a service:

- What did the person like to do?
- What was the person like as an individual?
- What was the person like as a professional?
- Was the person spiritual?
- Was the person proud of their heritage?

## LifeSymbols® Designs

LifeSymbols designs are a touching expressions of spirit, personality and interests of your loved one. These designs can be added to the Corners of LifeSymbols caskets or displayed on a memory table. These popular casket enhancements are also used as individual keepsakes for family and friends, and include themes of patriotism, gardening, sports, family relationships, and spirituality.

## Commemorative Panels

Located in the lid of the casket, embroidered tributes provide you with a personal way to highlight a loved one's interests, hobbies or values. Choices include spiritual symbols, organizational emblems, favorite pastimes, or special relationships.

## MemorySafe® Drawer

A unique feature built into the casket, the MemorySafe® drawer can be used to display your cherished keepsakes during the visitation, or to secure private mementos and farewell messages.

## The Selected Independent Funeral Homes' Code of Good Practice

Selected Independent Funeral Homes Our firm is a proud member of Selected Independent Funeral Homes, a worldwide trade association of independently owned funeral homes with a common interest in continuous growth and improvement to best serve families and individuals. We were invited into membership only after being carefully screened for our commitment to quality, range of consumer choices, affordability and high standards. Our membership allows us to learn from the best funeral directors in the world so that we may better serve you and our community.

As a member of Selected, we whole-heartedly agree to uphold the following Code of Good Practice.

### The Selected Independent Funeral Homes' Code of Good Practice

As funeral directors, our calling imposes upon us special responsibilities to those we serve and to the public at large. An important obligation is to provide information so that everyone can make knowledgeable decisions about funeral and cremation services.

In accepting our responsibilities, and as a condition of our affiliation with Selected Independent Funeral Homes, we affirm the following standards of good practice and hereby pledge:

1. To provide the public with information about funeral and cremation services, including prices, functions and the responsibilities of funeral directors
2. To make services available in as wide a range of price categories as necessary to meet the needs of all segments of our community, and to affirmatively extend to everyone the right to inspect and freely consider them all
3. To quote conspicuously in writing the charge for every arrangement offered, and to clearly identify the services, facilities, equipment and merchandise included in such quotations
4. To adhere to the highest standard of conduct in all aspects of business
5. To afford an ongoing opportunity to all persons to discuss or arrange funerals in advance
6. To ensure that pre-need contracts fully disclose those items which are guaranteed and those which are nonguaranteed, in terms that are clear and easy to understand
7. To manage prepaid funds responsibly, ensuring that promises are honored and expectations are met, within the letter and spirit of the law
8. To make no representation, written or oral, which may be false or misleading and to apply a standard of honesty in all dealings
9. To furnish each family, at the time arrangements are made, with a written memorandum of charges and to make no additional charge without their approval
10. To respect all faiths, creeds and customs, and to give full effect to the role of the clergy/celebrant
11. To maintain qualified and competent staff, appropriate facilities and suitable equipment required for comprehensive funeral and cremation services
12. To assure those we serve the right of personal choice in making service arrangements

We pledge to conduct ourselves at all times in a manner deserving of the public trust, and to provide a copy of this Code of Good Practice to the families we serve.

*In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.*

The only warranty on the outer burial container is the expressed written warranty, if any, granted by the manufacturer. The funeral home makes no other warranty either expressed or implied including the implied warranties of merchantability and fitness for a particular purpose.

**LifeStories® Display Medallions**

LifeStory caskets feature themes of spirituality, family and service, these beautiful medallions provide an elegant, upscale expression of the spirit and personality of the loved one. Displayed in the lid of the casket, our new LifeStories Display Medallions are unique in the funeral industry. Measuring 4 1/4” in diameter, the medallions are crafted of spun – cast metal with a bronze finish. Medallions are magnetically affixed to the inside of the casket lid and can be arranged in a number of configurations, depending on the family’s preferences.

**Memorial Record™ System**

A meaningful way to record vital information and fond farewells, the Memorial Record™ System can be used to enclose private messages and identification, with easy access from the exterior of the casket.

**Personalizing Services**

Every funeral presents an opportunity to share a life story. From simple, personalized touches to elaborate themed services, there are unlimited possibilities for creating a meaningful tribute. Your Pegues Funeral Director will be glad to assist in planning the most fitting tribute.

**Keepsake Jewelry**

Designed to hold a small lock of hair or a portion of cremated remains, keepsake jewelry is a unique and elegant way to hold a loved one close with a fashionable and lasting remembrance. Available in men's and women's styles, consider selecting a matching piece for family members to share a special and lasting bond.

## 20 Gauge Steel

Batesville's carbon steel caskets are available in three grades (from thickest to thinnest): 16 gauge, 18 and 20 gauge.

The most economical in our line are 20 gauge caskets feature a one-piece top, formed from a single sheet of steel, for added strength. A continuous seam weld secures the casket bottom to ensure its structural integrity. In addition, most 20 gauge caskets feature a one-piece rubber gasket that helps the entry of outside elements into the casket.

Some 20 gauge caskets manufactured without and these are referred to as non-gasketed steel or NGS.

## 18 Gauge Steel

Batesville's carbon steel caskets are available in three grades (from thickest to thinnest): 16 gauge, 18 gauge and 20 gauge. While not as durable or resistant to corrosion as stainless steel, they feature a one-piece top, formed from a single sheet of steel, for added strength. A continuous seam weld secures the casket bottom to ensure its structural integrity.

Some 18 gauge caskets are enhanced with Batesville's exclusive Cathodic Protection System, a scientific method that inhibits the formation of rust on outer surfaces to extend corrosion resistance by 2.5 times. In addition, a one-piece rubber gasket helps resist the entry of outside elements into the casket.

## Classics Veneer

Many families are drawn to the warmth and beauty of wood caskets. But the higher price of solid hardwoods can put them out of reach. Today, there are more affordable choices with the New Classics Collection of caskets... quality craftsmanship with premium wood veneers and engineered wood composites for the look and finish of solid hardwood.

Not only does our veneer manufacturing process offer improved structural integrity and eliminate many of the defects found naturally in wood, it permits far more efficient use of the resource. Because 95% of the tree is now usable, waste is significantly reduced.

They are available in a variety of popular wood stains and a full range of personalization features, making them a popular selection for today's families. With Batesville's New Classics Collection, warmth, beauty, affordability and eco-friendly construction add up to exciting new choices.

**Premium Stainless Steel**

Stainless steel is known for its quality and longevity, making it a valued material for casket construction. The grade of stainless steel is determined by the amount of chromium and nickel content — the higher the content, the higher the quality of the steel.

Premium stainless steel, also known as 18/8, contains 18% chromium and 8% nickel and is known for its strength and corrosion-resistant qualities.

**Bronze and Copper**

For thousands of years, craftsmen and artisans have appreciated the beauty of bronze and copper. Bronze and copper are among the most durable of metals, which makes them ideal for the construction of caskets. In 1963, Batesville Casket Co. became the first manufacturer to mass-produce bronze and copper caskets, creating production systems that made these products affordable to a wider segment of the population.

Batesville's carbon steel caskets are available in three grades (from thickest to thinnest): 16 gauge, 18 gauge and 20 gauge. While not as durable or resistant to corrosion as stainless steel, a wide selection of colors, finishes and personalization features make these caskets an attractive choice. They feature a one-piece top, formed from a single sheet of steel, for added strength. A continuous seam weld secures the casket bottom to ensure its structural integrity.

16 gauge caskets are enhanced with Batesville's exclusive Cathodic Protection System, a scientific method that inhibits the formation of rust on outer surfaces to extend corrosion resistance by 2.5 times. In addition, a one-piece rubber gasket helps resist the entry of outside elements into the casket.
