# Disease Control & Rush Services

**\*Parvo Cases are subject to a \$25 surcharge for cleaning and disinfecting after pickup and prep.\***

Parvovirus is spread through direct contact with a dog that's been infected or from feces. It's even possible for a human to inadvertently give it to a dog by stepping in dog feces and unknowingly tracking that inside the home. After each positive case we encounter, we are obligated to clean/disinfect our vehicles, equipment and ourselves to protect our loved ones at our homes and all the families we serve.

**\*Decomp Case Fee\* \$75**

During the summer months we experience extreme heat and can expedite the natural life process of decomposition. When doing removals from homes or receiving loved ones at our facility we are required to use specific cadaver bags that controls liquids and odor. These bags are a onetime use and disposal.

**\*Expedite/Rush Fee\* \$100**

Turnaround time for private cremations are expected to be 7-10 days to get a loved one back home. Expedited Fees are only applied if needed on a time sensitive matter. **(Not available for National Holidays)**
