General Price List

These prices are effective January 1, 2023, and are subject to change without notice.
All costs are determined when services are provided.

The goods and services shown below are those we can provide to our customers. You may choose only the items you desire. However, any funeral arrangements you select will include a charge for our basic services and overhead. If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected.

Bixby Funeral Service is accredited by the Green Burial Council of America. We will gladly tailor a care plan to match your degree of green.

PROFESSIONAL SERVICES

Basic Services of funeral director and staff \$1995

Our charge includes responding to initial request for service, conducting the arrangement conference, securing necessary permits, documents and authorizations, preparing notices, temporarily sheltering the deceased, and coordinating the arrangements with the cemetery, crematory, third parties or participants. Also included in this charge are overhead expenses relative to our facility such as insurance, maintenance, utilities, secretarial and administrative costs. This fee for our basic services and overhead will be added to the total cost of the funeral arrangements you select. (This charge is already included in our charges for direct cremation, immediate burials and forwarding or receiving remains.)

Care of embalming\$595

Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial. In the interest of public health, this funeral home requires embalming if the deceased is to be encountered for any category of viewing, except identification, which can be made by way of photograph to limit OSHA regulated exposure risks of encountering any biohazardous substance, if embalming is expressly declined.

Alternative sanitary care of the deceased\$595

This is the holding of the deceased for burial or cremation for up to 7 days when embalming is not elected. A \$50.00 daily surcharge applies for refrigeration after 7 days. An unembalmed body presents a health hazard to our employees and to the general public. With this option, the deceased is bathed, features set, topically disinfected, and placed in an especially designed refrigeration room.

Other preparation of the body\$250
 This includes applying cosmetics, dressing and placing the deceased in a casket or cremation container.
 (A hairdresser or barber, if desired, is not included in this fee).

Autopsy/Anatomical Gift/Trauma Reconstruction.....\$100/hr up to \$500
