WHO WE ARE

As a professional establishment, we have approached life (and death) differently. While some just see the end of a loved one's life as a time for grief and mourning, we prefer to think of it as a time for reflection, appreciation, and even celebration. This is evident in everything we do—from the way we conduct our services to the amenities we offer.

We are dedicated to honoring, sharing, and preserving the amazing and inspirational lives of God's people.

Attention to your needs is paramount—such as how to present options without overwhelming and how to meet the needs of many caring families. Our community relies on Mansfield Funeral Home & Cremations in difficult times, and we promptly respond in kindness with a calming spirit.

Mansfield Funeral Home & Cremations was established to serve families and will always be our focus. We take pride in guiding our families through some of their most difficult days, while providing a tranquil environment that allows people to find solace.

Celebrating life is our ministry.

It also provides for securing and recording the death certificate, any disposition permits necessary, and coordination with all parties involved in the final disposition (such as the cemetery or crematory).

ADULT OUTER BURIAL CONTAINERS

In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

PURPOSE OF A BURIAL VAULT

A burial vault is a lined and sealed outer receptacle that houses the casket. It protects the casket from the weight of the earth and heavy maintenance equipment that will pass over the grave. It also helps resist water and preserves the beauty of the cemetery or memorial park by preventing the ground from settling due to deterioration of the casket over time.
